WASTE

**kimpak**

PASSION FOR THE ENVIRONMENT. ENERGY FOR THE FUTURE.

## Compact / Reliable / Economic / Practical / Solution for

- Electroplating plants
- Galvanizing plants
- Automotive industry
- Dye-houses
- Metal industry
- Chemical industry
- Mineral industry
- Food industry
- Lubrication stations
- Oil processing plants

### Benefits of kimpak®

- Designed for chemical wastewater treatment
- Effective removal of Cr, CN, Zn...
- Emulsion oil purification
- Composed of neutralization, flocculation, sedimentation, flotation and chemical dosing units
- Equipped with necessary instrumentation for easy control and operation
- Produced for container transportation
- Minimum space requirement
- Fast delivery
- Compact and functional
- Easy to install
- Automatically operated
- Economical solution

- › With over 32 years of engineering & manufacturing expertise,
- › Proven design and quality-control,
- › Process guarantees and full customer support,
- › ARTAŞ is your enduring partner.

### Optional equipment

- Supply of equalization tanks
- Pumping station
- Aeration facility
- Sludge dewatering facility
- Auxiliary units for reuse of wastewater

### kimpak® components

- KIMPAK is produced to treat hydraulic capacities in between 0.5 m<sup>3</sup>/hr to 10 m<sup>3</sup>/hr capacity range.
- KIMPAK is delivered as one or more container groups.

### Technical Properties

- Special design is available to obtain the desired effluent water quality according to wastewater type.
- Skid mounted oxidizing, reduction, flocculation, coagulation, neutralization, floatation, sedimentation and chemical dosing units are available with necessary instrumentation and control system.
- Automatic and continuously operated.
